

## اخطار فوری:

### دولت اسرائیل در راه ارتکاب جنایت علیه بشریت

ما اعضای هیأت علمی و دانشگاهی [اسرائیل] از اقدام ایالات متحده برای دست زدن به تجاوز علیه عراق که مسؤولین سیاسی اسرائیل با شور و حرارت فراوان از آن پشتیبانی می کنند به شدت هراس داریم. ما عمیقاً نگران آن ایم که دولت اسرائیل از «مه و تیرگی ناشی از جنگ» سوء استفاده کند و به جنایت های بیشتری در حد پاکسازی قومی تمام و کمال علیه ملت فلسطین دست بزند.

ائتلاف حاکم بر اسرائیل شامل احزابی ست که «انتقال و اخراج» مردم فلسطین را راه حل «مشکل تراکم جمعیت» می دانند. رسانه های گروهی منظمماً سخن سیاستمدارانی را نقل می کنند که پیشنهاد اخراج اجباری فلسطینی ها را مطرح می نمایند. اخیراً در ۱۹ سپتامبر چند تن از اعضای کنیست (پارلمان) میکائیل کلایئر و بنی الون چنین سخنانی را در سایت روزنامه، یدیעות احرنوت اظهار داشتند.

موشه یاعلون، رئیس ستاد ارتش، طی مصاحبه ای با روزنامه هآرتز، فلسطینی ها را «شبهه سرطان» نامید و عملیات نظامی ارتش اسرائیل را در سرزمین های اشغالی «شیمی درمانی» خواند و پیشنهاد کرد که «معالجات» قاطعانه تری ممکن است لازم شود و شارون، نخست وزیر، از این «ارزیابی واقعیت» پشتیبانی کرد. افزایش برخوردهای نژادپرستانه نسبت به شهروندان فلسطینی اسرائیل می تواند نشانه ای باشد که کسانی احتمالاً مترصد فرصتی هستند برای ارتکاب جنایاتی بزرگتر.

ما جامعه بین المللی را فرا می خوانیم که به حوادث جاری در اسرائیل و سرزمین های اشغالی توجه دقیق مبذول دارد تا به همگان به نحوی روشن بفهماند که جنایت علیه بشریت را تحمل نخواهد کرد و برای جلوگیری از این جنایات اقدامات مشخصی را به اجرا خواهد گذارد.

امضای دانشگاهیان اسرائیل:

Urgent warning:

## **The Israeli government may be contemplating crimes against humanity**

We, members of Israeli academe, are horrified by US buildup of aggression towards Iraq and by the Israeli political leadership's enthusiastic support for it.

We are deeply worried by indications that the "fog of war" could be exploited by the Israeli government to commit further crimes against the Palestinian people, up to full-fledged ethnic cleansing.

The Israeli ruling coalition includes parties that promote "transfer" of the Palestinian population as a solution to what they call "the demographic problem". Politicians are regularly quoted in the media as suggesting forcible expulsion, most recently MKs Michael Kleiner and Benny Elon, as reported on Yediot Ahronot website on September 19, 2002.

In a recent interview in Ha'aretz, Chief of Staff Moshe Ya'alon described the Palestinians as a "cancerous manifestation" and equated the military actions in the Occupied Territories with "chemotherapy", suggesting that more radical "treatment" may be necessary. Prime Minister Sharon has backed this "assessment of reality". Escalating racist demagoguery concerning the Palestinian citizens of Israel may indicate the scope of the crimes that are possibly being contemplated.

We call upon the International Community to pay close attention to events that unfold within Israel and in the Occupied Territories, to make it absolutely clear that crimes against humanity will not be tolerated, and to take concrete measures to prevent such crimes from taking place.
